

World TB Day March 24, 2014

On World TB Day we recognize the partnerships at the local, state, national and global levels that make it possible to reach those at highest risk for TB, and to identify and implement innovative strategies to fight TB.

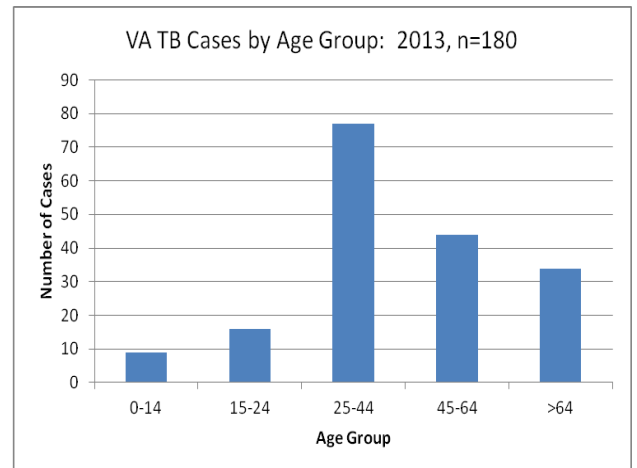

TB Globally

- In 2012, there were an estimated 8.6 million new cases of TB
- An estimated 1.3 million deaths occurred in 2012, including 320,000 that were associated with HIV
- Globally in 2012, MDR-TB was seen in nearly 450,000 cases

TB in the United States

- In 2013, the United States reported 9,588 TB cases for a rate of 3.0/100,000
- Compared to 2012, this represents a decrease of 3.5% in the number of cases and a 4.2% decrease in the rate

TB in Virginia

- Virginia reported 180 cases in 2013 for a rate of 2.2/100,000
- Compared to 2012, this represents a 23.4% decrease in the number of cases and a 24.1% decrease in the rate
- With the exception of Central Region declines were seen across the state
